Grade 4 Weeks 21-24 Notes

Option 1:

Weeks 21-24

All picture study featured works will be found on www.abcgallery.com. Feel free to choose any of Picasso's other many paintings for your picture study. Please be cautioned that there may be nudes listed among his works so please preview any paintings that you are considering. Use the online resource to view as many as you would like. If you would like to give your child a brief biography of Picasso, use the link provided in Option 2, week 24 for information to share with your child.

Option 2:

Week 21-22

Please note that the still life assignment is spread out over two weeks. The plan allows for extra time since this is the first time they have worked on a sketch of this type. Make sure you set up the still life in a place where it can remain up for a week.

Week 23-24

For the still life projects for each of these two weeks you will need to find objects for your own still life. Complete the project using the same steps as weeks 21 and 22.

Option 3:

Weeks 21-24

Use the Picasso painting cards to study his artwork. Choose 1 or 2 cards per week to view and perhaps memorize the titles. Please note that there are many nudes in this set of cards and preview any you plan to use with your child.
